MAKE-YOUR-OWN MIXELS™ THE GAME!

A GAME FOR 2 TO 6 PLAYERS!

Race across Planet Mixel, picking up pieces along the way! Roll a LEGO® brick to find out how many spaces to move, and then choose your path. Explore the lands of the Mixels Tribes to collect more parts, and build the best Mixel at the end to win!

RULES

- 1** Make a pile of LEGO pieces that everyone can use while they play the game. Try to include useful parts for Mixels like eyes and teeth.
- 2** Use a LEGO piece of your choice as a player token, and start out on the space marked **START**. Players take turns from youngest to oldest.
- 3** Roll a 2x4 LEGO brick to find out how many spaces you will move. If it lands with its studs facing up, move 1 space. If it lands studs-down, move 2 spaces. If it lands on its side, move 3 spaces. You can only move forwards, not back.
- 4** Follow any instructions on the space that you end up on. If you land on a picture of a LEGO piece, then take any piece from the pile.
- 5** When you reach a Mixels Tribe circle, you can choose which way to go around it.
- 6** When you get to the New Year's Party, stop (even if you can move more spaces) and use all of your pieces including your player token to build your own custom Mixel.
- 7** Whoever makes the biggest, coolest, funniest Mixel when all of the players have finished is the winner!

START!

Smash up an old wall and collect 3 extra pieces!

Get stuck in wet cement and lose a turn.

Construct a new house and collect 3 extra pieces!

Sneeze your way to collecting 3 extra pieces!

DRIPPY? I HAVE NOSE IDEA WHAT YOU MEAN!

Gesundheit! Collect 3 extra pieces...and a tissue.

Watch out for that puddle of gooop! Lose a turn.

Want to watch some cool Mixels videos? Check out LEGO.com/mixels

WHAT'S EVEN MORE FUN THAN BUILDIN' A LEGO® MODEL? TAKIN' IT APART AGAIN!

You're getting hungry!
Move 3 spaces ahead toward the Munchos Tribe.

Help Fork fix a broken bridge by putting 1 of your pieces back on the pile!

You're feeling kind of full. Skip right past the Munchos Tribe!

Maximize your Mixel by collecting 4 extra pieces!

Collect 5 extra pieces as a party favor!

Eat a healthy meal and collect 3 extra pieces!

Stop for a snack and lose a turn.

Find the prize at the bottom and collect 3 extra pieces!

* Each Max is made by combining parts of 3 Mixels.

TEAM EFFORT!

The Avengers are a team of Super Heroes, all with different abilities and strengths. They work well as a team because they each use their individual powers to solve different problems or to beat different enemies. In the new video game LEGO® Marvel's Avengers, you must select different Super Heroes to advance through the levels.

Here we've made a different set of challenges to get you ready for the video game! Check out the obstacles below and choose which Super Hero would be best to face each challenge!

A CAPTAIN AMERICA

Transformed by a special serum into the ultimate Super Soldier, Captain America has super strength and agility. His vibranium shield can deflect almost anything.

B THOR

Prince of Asgard and guardian of the extraordinary hammer Mjolnir, Thor has the power to summon lightning, not to mention super strength and flight.

C THE HULK

Brilliant scientist Bruce Banner was exposed to gamma radiation that caused him to develop the powerful green alter ego of The Hulk. Huge and nearly invincible, Hulk can smash through almost anything.

D BLACK WIDOW

Natasha Romanoff is incredibly clever, quick and agile. She doesn't have any superpowers, but she is a master of infiltration, acrobatics and espionage.

E IRON MAN

Tony Stark is a technology genius, a billionaire inventor, and a core member of the Avengers. His suit enables him to fly, shoot projectiles, and protect the people he cares about.

F HAWKEYE

An ace archer, Hawkeye never misses a mark, and now that he has teamed up with the Avengers his usual enemies have changed from ordinary thugs to extraordinary super villains. Thankfully, Hawkeye is a great shot!

A ROCKY CHALLENGE!

The LEGO® Technic Mercedes-Benz Arocs 3245 is on one of its toughest jobs. Read the story and then decide how you'd like it to end!

A construction job in the blazing heat, in a rocky desert valley, would be a challenge for most vehicles. For a truck like the Mercedes-Benz Arocs, it was just another day on the job. A worker in an orange vest waved the truck through, kicking up dust as it rolled easily over the heavy rock.

"Thank goodness you're here," said a worker as the truck came to a stop. "We need to get all this rock out of here, and it's just too heavy for most of our vehicles. Think you can handle it?"

"No problem," said the driver. He pulled the Mercedes-Benz Arocs forward to where the excavators and loaders were breaking up and lifting the sturdy ground. He pulled the truck into position, and the heavy rock and rubble was dropped into the back of the truck. The truck took the new weight easily, the driver hardly feeling a thing in the quiet cabin.

Suddenly, there was a rumbling sound close by...

Over to you! What do you think happened next? Come up with your own ending to the story.
